

Apotema Rug By Calligaris

VOYAGER

Designed by: Michele Menescardi

Jacquard-woven rug with a rectangular shape, made from mixed cotton and chenille yarns with plush effect and featuring a close net of triangles in the shades of sky blue on a light grey background.

The pureness and rigour of classic geometry laws turn into a decorative pattern drawing inspiration from the origami Japanese paper, reinterpreted in a modern twist thanks to the colour palette recounting spaces and times of contemporary living.

Apotema finds its best expression if matched to furniture with light finishes.
