

Balance Round Dining Table By Calligaris

VOYAGER

"Graceful lines with a simple yet iconic profile."

Designed by Pio & Tito Toso.

Balance round dining table has a simple yet iconic profile, its graceful line is the result of combining three elements: the bulging base, central column and round top.

The round top rests on a varnished metal column pedestal. Despite the small contact area between the load-bearing column and bulging base, the table is extremely stable thanks to its heavily weighted metal base. Slender, elegant and sober, Balance satisfies any practical and aesthetic needs and can adapt to a variety of contexts, including domestic settings and public or commercial spaces.

Available in three sizes:
