

Bam Coffee Table By Calligaris

VOYAGER

Designed by: Archirivolto: Dondoli and Pocci

With geometric shapes sliced to form a large inlay, the coffee tables of the BAM range reveal a striking "minimal chic" style. Ceramic or mirror and wood merged in the top to enrich the simple design of the BAM coffee tables with a touch of distinctive charm.

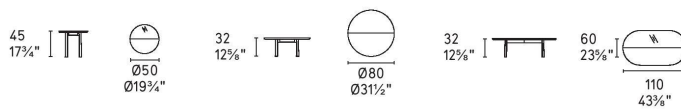

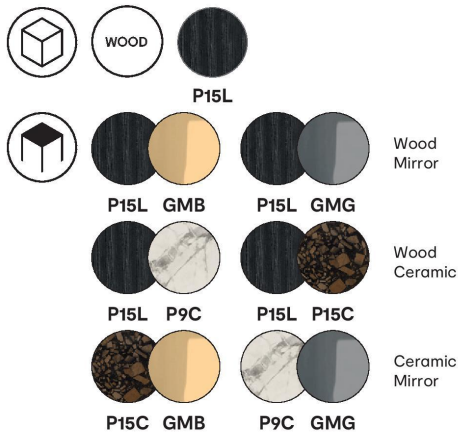

The structure is made of laquered open-pore ash, while the tops are available in various finishes, but always with two different materials combined together.
