

Cartesio Extendable Table By Calligaris

VOYAGER

As a table, CARTESIO exudes restrained elegance and features a top made either from wood or ceramic as well as an original weight-bearing structure in varnished metal made up of 4 V-shaped rectangular-section legs. Originally designed as a fixed table, this Cartesio version has just been adapted to become one of Calligaris' extendable tables. It has two side extension leaves measuring 40 cm each to be opened separately.

Dimensions: 160 (200) (240) x 75 x 90 cm
