

Clarendon Console By Bernhardt

VOYAGER

“Blending gorgeous leatherette wrap, ash and oak timbers and burnished brass details, the Clarendon console is a fabulous accent piece to introduce sophisticated materiality to your space”

Steeped in English tradition, but tempered with modern touches, Clarendon is a neo-traditional collection that offers sophisticated style and casual appeal. White oak veneers are wire brushed and given a powder glaze underneath the Arabica finish creating a cerused effect that complements the burnished brass metal and Vienna Walnut top-stitched bonded leather.
