

Connect Rug

VOYAGER

“Striking a perfect balance between fine design and sustainability.”

Connect is a machine-woven rug that has made use of biotechnology and the fermentation of maize glucose. This process enables us to replace up to 37% of oil in fibre production. As for the remaining 63%, recycled PET bottles have been used to produce the polyester.

Furthermore, the rug has been enhanced with Nanoloc spill-protection technology for quick and easy cleanup that will keep this item looking beautifully stylish. Striking a perfect balance between fine design and sustainability.

Colours: Available in Beige and Taupe *170 x 230cm *200 x 300cm

Fabrics: MACHINE MADE WOVEN RUG - 63% RECYCLED PET 37% CORN STARCH
