

Jam Gas Lift Stool By Connubia

VOYAGER

“Whether choosing a vibrant colour or glossy neutrals, the Jam stool is a light, comfortable stool with personality”

Made in Europe from premium polymers and polished chrome.

Design by Archirivolto, Italy.

Brightly coloured modern stool with metal sled base, suitable for kitchens and living areas.

Jam features a two-tone technopolymer shell, with a glossy white seat area and back available in a range of different colours. The oval holes in the backrest add to Jam's a distinctive design. Have fun mixing and matching Jam colour combinations to find the one that best suits your home!

Also, see matching Jam chairs with sled-base, straight legs or spider-base, jam office swivel chair and or adjustable swivel base stool also available.
