

## Jungle Round Table By Calligaris

**VOYAGER**

Jungle is a non-extending round table which is part of the homonymous set of tables whose hallmark is the four-legged base structure in solid ash with a triangular section. The legs seem to intertwine like tree branches or thin trunks in tropical jungles. The wood on the frame and the table top in glass or ceramic create an interesting aesthetic contrast which makes this table astoundingly elegant and incredibly unique.

### Tables Dimensions

Diameter: 140cm cm Height: 76cm
