

## Kaleido By Bontempi Casa

VOYAGER

**“Majestic and enchanting, Bach is a table with a significant scenic vigor sign of the never-ending search for elegance”**

The Kaleido table commands attention not merely for its imposing dimensions but for its visionary design. Its sculptural base, with a striking triangular section, evokes the mesmerizing symmetries of a kaleidoscope - a play of forms that shift and evolve from every perspective. This design achieves a flawless harmony between architecture and artistry, where the robustness of metal merges seamlessly with the elegance of precision-sculpted lines. Kaleido offers extensive customization, from the choice of two or three bases to the shape and dimensions of the top, enabling bespoke solutions that cater to diverse stylistic and functional needs. A masterpiece for those who appreciate beauty in proportional harmony and the contrast of strength and grace, Kaleido epitomizes the convergence of design, emotion, and grandeur.
