

## Stellar Dining Table By Calligaris

**VOYAGER**

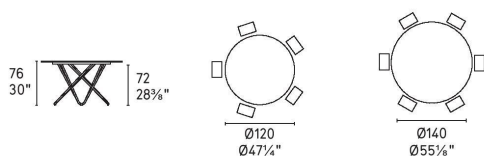

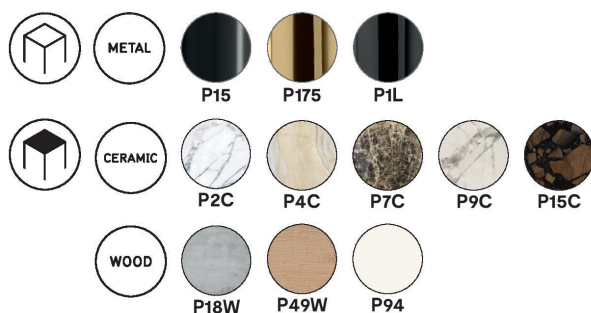

Designed by: Busetti Garuti Redaelli

An eclipse was taking place when STELLAR was born, the non-extending round table designed to brighten up your dining room. The base evokes a graphic sign with its intertwining elements, creating a discreet and elegant cosmic-inspired assembly that supports round ceramic or wooden tops. Its unmistakable silhouette, with its sober arrangement and up-to-date look, merges lightness and solidity through the intertwining of the metal base.
