

Tondina Lamp By Ditre Italia

VOYAGER

Tondina is a light fixture made of metal and glass. The slim metal structure made of brushed brass rods is slightly out-of-alignment to suggest a spiral diffusion of light. It is available floor-standing or as a table lamp. Two types of glass are also available: clear or opal.

Prices, availability, lead times, dimensions and product information listed are subject to change without notice. This document was created on 11/Oct/2022 at 11:19 AM.
