

Trame Mirror By Calligaris

VOYAGER

The mirror is made in two different sizes with decorative silk-screen patterning beneath the glass on one part of the surface. It looks equally good attached to the wall either in a vertical or horizontal position. Halfway house between a mirror and an objet d'art! Trame is a collection of rectangular and round mirrors with a series of decorative silk-screened and closely positioned vertical lines on one half. The silk-screen patterning comes in a grey, burgundy and pale pink colour palette. This arty accessory will help your home walls reveal their true stripes.
